

ALARM LOCK

Trilogy Networkx™ Locks

DL6100 & PDL6100

Trilogy Networkx Locks eliminate door-to-door programming and audit trail retrieval by communicating wirelessly via Ethernet or 802.11B/G, while providing all original Trilogy standalone lock's functionality.

Specifications:

- Weatherproof locks for indoor/outdoor use with wide operating temperature range (-31° to 151° F).
- Industrial strength BHMA Grade 1 durability and vandal-resistant all-metal keypad for PIN codes.
- ADA-compliant leversets.
- Easy-to-install modified ANSI A115 Series door prep; easily/neatly retrofit standard cylindrical knobsets and mechanical standalone locks, in under an hour.
- Non-handed.
- 3 hour UL fire-rated deadlatch.
- Supports 1⁵/₈" to 1⁷/₈" door thickness
- 2³/₄" backset (2³/₈" available.)
- Manual key override standard; most IC cores also supported on interchangeable core models.
- PDL6100: Integral bi-directional radio, 4-"C" batteries included, SC1 keyway, 4⁷/₈" ASA strike included.

Features:

- Unsurpassed 5-year+ battery life.
- Trilogy Networkx and gateway modules have an integral transceiver for highly-efficient 900MHz bidirectional communications, for longer range and less interference than with more common 2.4GHz spread spectrum devices.
- In 10 seconds, activate emergency global lockdown/unlock from the Networkx PC or any Networkx lock activated from any lock, with or without the PC online by any authorized user with global permissions.
- Locks support up to 5000 users with 3-6 digit numeric PIN codes and PDL-Series also support prox ID card users; keypad programmable.
- On demand, in seconds, wirelessly change users, schedules, lock features or retrieve audit trails of up to 35,000 events/lock from any networked PC.
- Seamless upgrade path for original Trilogy users.
- Free Alarm Lock DL-WINDOWS software doesn't require a dedicated computer or a special computer network or costly server software licenses.
- Minimizing hardware & installation costs, a single gateway module can be placed anywhere on any size network and interface between the PC network and up to 63 Networkx locks.
