

IDN TODAY!

SUMMER 2011

**900 SERIES
KNOBS**

GRADE 2 COMMERCIAL KNOBS:

LSDA Grade 2 Knobs offer universal styling and keying options. Designed for all types of commercial and some residential applications, a great choice for new and retrofit installations. Available in a large selection of functions, Certified Grade 2 Standard and is UL listed for 3-hour fire rating.

- Sold Less Cylinder, compatible with LSDA C500 replacement cylinders and many other retrofit cylinders, including most high-security brands. Also available prepped for SFIC.
- Door Thickness: 1³/₈" to 2"
- Door Prep: bore 2¹/₈" x 1", crossbore

**5000 SERIES
LEVERS**

GRADE 1 HEAVY DUTY COMMERCIAL LEVERS:

LSDA Grade 1 Levers are designed for use in high-traffic locations such as schools, hospitals, transportation centers and many other demanding locations. When locked the lever still moves, reducing torque and increasing the life of the lock. Available in a large selection of functions, Certified Grade 1 Standard and is UL Listed for 3-hour fire rating.

- Equipped with SC4 rekeyable 6-pin cylinders. Compatible with LSDA C500 replacement cylinders and many other retrofit cylinders, including most high-security brands. Also available prepped for SFIC.
- Door Thickness: 1⁹/₁₆" to 2¹/₈"
- Door Prep: bore 2¹/₈" x 1", crossbore

Electronic ACCESS Ace

**Electronic Access Control
(EAC) Specialists**

- Stu Maijala
- Mark Hanson

E-mail your questions to: eac@idnhoffman.com

Q: With a hardware access control system, where should we be using OAS (Overall Shielded) wire?

A: OAS wire should always be used from the reader to the controller to prevent RF interference. In addition to other OAS wires currently stocked at IDN H. Hoffman, the most popular are the 67005 Series (EZ# 086821) 6 Conductor wire, and the 67007 Series (EZ#102470) 6 Conductor wire. For more information on the OAS wires, contact eac@idnhoffman.com

220 & 20 SERIES DEADBOLTS

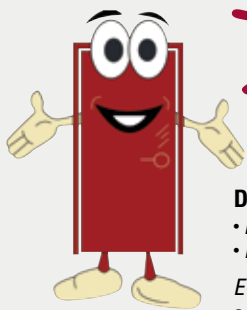

D600 SERIES DEADBOLTS

LSDA Grade 2, 220 Series and Grade 3, 20 Series Deadbolts are available in single or double cylinder in large selection of finishes. Offer massive 1" thru bolt with hardened steel rod to resist sawing and rotating collar with insert to resist wrenching.

- Standard 2 $\frac{1}{8}$ " cross bore
- Comes with adjustable 2 $\frac{3}{8}$ " to 2 $\frac{3}{8}$ " adjustable square bolt.

LSDA Grade 3, D600 Series Deadbolts are versatile and cost-effective locks for residential, multi-family and light commercial applications. Available in single or double cylinder in large selection of finishes, and can be replaced with LSDA C500 and other readily available knob/deadbolt cylinders.

- Drilled for 6-pin, keyed for 5-pin.
- Lock fits 1 $\frac{1}{2}$ " holes, but comes with trim rings that allow use in 2 $\frac{1}{2}$ " holes.

DOOR GUYS

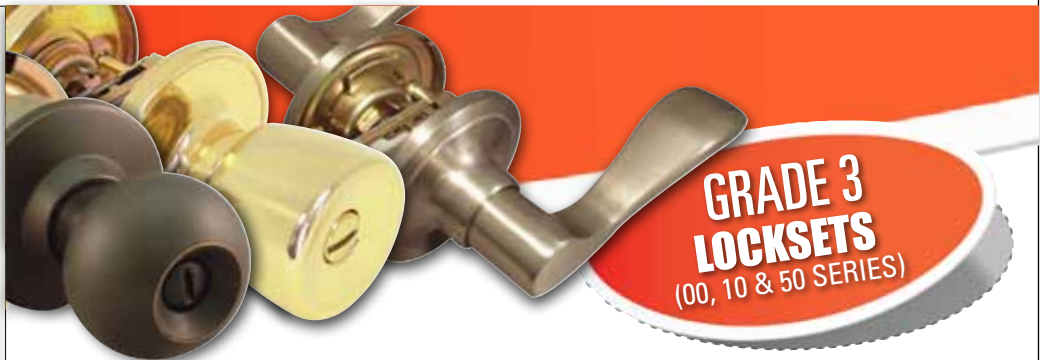

Door Specialists

- Mike Frieri
- Bob Josefson

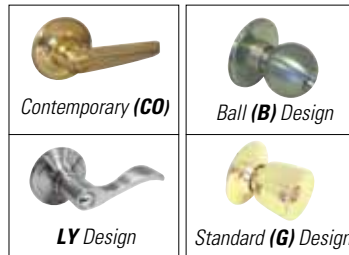

E-mail your questions to: osd@idnhoffman.com

Q: When I place my next door order, is there anything you can do to prevent rust on a door?

A: When you place your next order, request your door to be galvanealed which prevents rust and prolongs the life of the door and frame. Also, if you paint the door all around (top, bottom, lock edge, hinge edge and both faces) this will help.

GRADE 3 LOCKSETS (00, 10 & 50 SERIES)

Contemporary (CO)

Ball (B) Design

LY Design

1820 Hook Bolt

1850 Deadbolt

4510 Deadlatches

This line of commercial hardware fits standard $\frac{31}{32}$ " and $\frac{1}{8}$ " backset door preps. LSDA narrow stile mortise locks are packed with both (clear aluminum and duranotic bronze finish) faceplates, to match the most common door finishes. Interior lever handles and push/pull paddles, available in both finishes, are non-handed easily converted to either Left Hand or Right Hand operation.

Paul Krause, C.R.L.
E-mail your questions to:
keywizard@idnhoffman.com

Q: Do you know where we can get the following blanks: Y106 and F72W? My customer says this is for Jensen Hedley.

A: Y106 is a Cole number which translates to Ilco P1771CR which is also known as X16. The F72W is a Taylor number which translates into two numbers, Ilco F91CR and SF8. Both available at IDN H. Hoffman

Q: A customer brought in a broken double sided key. On one side it said Cleveland, OH, and Eberhard. On the other, it had a code H701D, which did not show up in my code software. It is for a Leer cap on a Lincoln Mark pickup truck.

A: That should be the Ilco 1623 key blank, currently stocked at IDN H. Hoffman.

LET US KNOW HOW YOU LIKE IT.
